

Gordelia

The Karma Factory Music & Lyrics © 1997,2023, Scott Lippincott, Nursery Rhymes Music (BMI)

She affects the way I breathe
She's on top from underneath
She never does the things she should
And half the time she's twice as good
And I will not complain

Looking down on everyone
Playing mind games just for fun
All tied up but in control
Still's the mind but stirs the soul
And I cannot complain

Gordelia
Come and save me from the rain
Gordelia
Come and save me once again

I don't know if she's the one
Drive me insane before she's done
And if you like her attitude
She'll cut you off 'till you turn blue
And I cannot say no

And when you think that you've been beat
Her seduction is complete
She don't love you anymore
You see her walk right through the door
But I can't let her go

Gordelia
Come and save me from the rain
Gordelia
Come and save me once again

And still she keeps me hanging on
and I'm hanging on for me
And still she keeps me hanging on
you see

She's still affects the way I breathe
She's still on top from underneath
She never does the things she should
And half the time she's twice as good
And I will not complain

Gordelia
Come and save me from the rain
Gordelia
Come and save me once again
Gordelia
Come and save me from the rain
Gordelia
Come and save me once again
